AnaConEx Group

AnaConEx Group is a next age's global technology services provider that enables businesses to grow by availing the enhanced operational and automation capability. AnaConEx believes in total ownership of the software the clients are spending for. AnaConEx Group' prime focus is on Free and Libre software. AnaConEx is a gold partner of Odoo ERP and international implementation services provider. Odoo is an Open Source Platform with no or minor licensing only for the enterprise edition.

AnaConEx Group has a strong pool of Technology Professionals led by a diverse combination of solution architects and experienced project managers. The team is highly capable of managing end-to-end successful implementation and meeting the strategic objectives of our clients.

With the time of the proprietorship software, AnaConEx highly recommends the use of an open-source platform. ACES offers business process automation as well as standard ERP implementation to manage the back-office operations.

Our Vision

To be the partner of choice for the implementation of enterprise business automation solutions at a global level.

Our Mission

Provide exemplary services and cutting-edge state-of-the-art solutions to clientele with business process automation by adapting user requirements diversity, helping customers in strategic decision making.

Core Services

Business Automation Consulting

Business Processes Automation also known as a Business Automation, with a team of experts we advise right and modern software application/solutions which enforce standard operating procedures (SOP's) and business rules in the organization, which not only increase efficiency and productivity but also provide controls across the organization.

Software Licensing & Implementation Services

Our expertise in implementing software and licenses for a variety of complex architectures has also helped facilitate smarter purchasing decisions based on actual user experience.

Cloud Solutions

Cloud solutions help many companies to increase their productivity and efficiency by empowering them with more flexible and advanced infrastructure solutions in the form of Infrastructure as a Service (IaaS), Platform as a Service (PaaS), and Software as a Service (SaaS).

Software Applications Development

Whether it is an idea for a new software product or a software solution for a business problem we help you at any and every stage of the software development life cycle from business analysis to prototyping to development, testing, and finally deployment of the custom software solution.

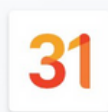

Amazing employees deserve amazing software

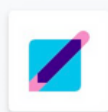

The only platform you will ever need to help run your business: integrated apps, kept simple, and loved by millions of happy users.

AnaConEx Academy

A Professional Training Platform

We offer training to both university graduates and professionals.

In recent few years, **AnaConEx** has devised a strategy to help the Odoo community by training and transforming the students on the Odoo platform and solutions and providing the right tools to spread the Free and Libre Software adaption.

AnaConEx Academy aims to train students about ERP platforms, the need, back-office operations, and the implementation of ERP solutions based on user requirements. Including the adoption of the real-time scenario by providing environments that remove learning barriers. Also, provide users with a structured path to build knowledge based on the Odoo applications.

ANACONEX ACADEMY ENABLES THE STUDENTS TO LEARN:

- ✓ Encourage adaption of Odoo ecosystem
- ✓ Understand a diversified list of Odoo features and functionalities
- ✓ Interact with experienced instructors
- ✓ Be competent Odoo Consultant and serve globally

Why AnaConEx Academy

- ✓ Distance Learning Program
- ✓ Enroll Anytime from Anywhere
- ✓ Experienced trainers with varied industry knowledge and global expertise
- ✓ Free software installation for lifetime
- ✓ Recorded Lectures Archive
- ✓ Training Certificates
- ✓ 24/7 trainer support by WhatsApp Group
- ✓ Long-term career Counseling
- ✓ Support innovation and development
